YOURS

Yours to keep
site and files in your name

01 WHERE WE STARTED

What we built it around.

- 01 Towers Armory offers 14 shooting lanes, seven 50ft lanes and seven 130ft lanes.
From your range page. Option 1 runs down your own lane row after dark, your red crest on every divider, in your own red and black.
- 02 More Than a Gun Store, A Community Hub
From your homepage. Option 2 sets it in carved caps beside your shop aisle drawn as a print, with your line about first-time shooters and seasoned enthusiasts.
- 03 We are well-stocked with thousands of firearms.
From your About page. Option 3 opens on your shop wall and counters in a light, open layout, with a search bar into your online store.

06 QUESTIONS

The usual questions.

01 Will moving hurt my Google ranking?

We move it carefully. Every page address on your current site keeps working or forwards to its new page, and your titles and business details carry over, so nothing Google already knows about breaks. The new site is fast and built for phones first, which Google rewards. We don't promise rankings.

02 Is it secure?

Yes. It's built lean and tested on a preview before anything goes live, and your forms keep sending to the same inbox they do now.

03 Who owns it?

You do. The design and every file sit in your name. Your domain stays with you; nothing of ours renews unless you ask.

04 How do I make changes?

Text or email me the change and it's live the next business day. The first 30 days are free. After that, unlimited changes come with any monthly plan, from \$250 a month, cancel anytime.

05 When do I pay?

Half (\$1,250) when you say go, the rest (\$1,250) when the site is live. You've seen the homepage before paying anything.

06 What about the rules changing again?

Then the site changes with them. You tell us how you're selling, and the buying page says exactly that, in your words. We never write legal advice onto your site.
